## ECO TOURISM

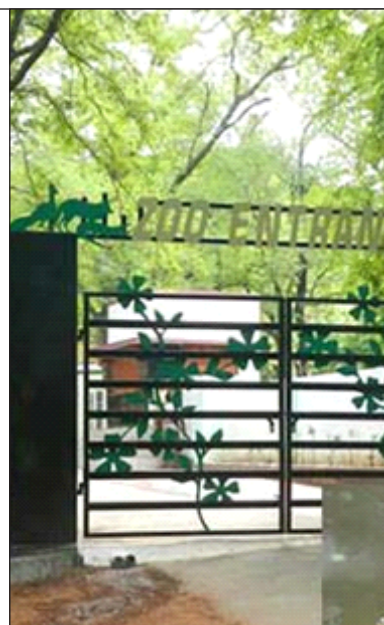

Ecotourism offers responsible travel to nature enriched areas, enjoying time there yet, conserving the environment. While there are so many places to travel in Tamilnadu, finding local guides who can take us around to provide rich and memorable experiences, is quite tough and in many areas they are unavailable. To bridge that gap Awaken To Life a services organisation, has come up with attractive packages for schools, college students and families to explore Jamunamarathur (in the Javvadu hills) near Vaniyambadi. Scan the given QR code for the location.

# About Jamunamarathur

Jamunamarathur is an extension of the Eastern ghats and contains a large variety of flora and fauna. It is on the top of Jawathu Hills. It is the second highest place in Thiruvannamalai district. They consist of bluish gray granites, with peaks averaging 3,600–3,800 feet (1,100–1,150 m). The hills are sparsely populated; the majority of the inhabitants are Malayali tribespeople. There are various attractions in and around Jamunamarathur. A few of them are:

- Beeman Falls
- Vainu Bappu observatory in Kavalur
- Lake
- Amirthi Zoological Park

## Packages

### Ecotourism for individual and families

Package includes the following:

- Food & Tent with campfire (includes DJ music)
